711.03 Reconsideration of Holding of Abandonment; Revival - 700 Examination of Applications

711.03 Reconsideration of Holding of Abandonment; Revival

When advised of the abandonment of his or her application, applicant may either ask for reconsideration of such holding, if he or she disagrees with it on the basis that there is no abandonment in fact; or petition for revival under 37 CFR 1.137.

Request for reconsideration and for assistance in protecting my intellectual property.
Re The Ubie™ Technology "Smokeless Pipe" 09/783,811

My name is Timothy Sheridan

I am the sole author and inventor of the "Ubie"™ A smokeless cigarette technology in which a lighter exhaust is drawn into a device to produce noncombustion heating for safer smoking. Since the invention of this I have been attacked in every imaginable way to prevent my business from proceeding.

At first there were nails in my driveway every day or two.

My business has been hacked on the internet since the beginning to prevent me from acting and starving me of cash. Later I was sleep deprived through various techniques including physical noises, automated noises and phone ringing in the middle of the night and apparently other surveillance methods. I was delayed the entire time by constant harassments which increased in severity at various times which caused me to lose many nights of sleep and virtually incapacitated me.

The intimidation is entirely responsible for any delays.

I was repeatedly attacked and was abducted on the ridiculous claim that someone "found cookies on their doorstep". It became clear that these attacks were either direct or prompted by an advanced surveillance team. My credit card has been disabled periodically. Someone claims to have bought a computer on a credit card I did not request. I have been sued to divert my attentions. My phone and mail appear to have been periodically interrupted; as my Attorney stated that he received letters to me which were returned to him unopened.

My attorney claimed I did not want the patent and filed incorrect or incomplete applications for revival. This is false. I have granted no rights to the Ubie™ or relevant technology. I am its Author and owner. I was delayed the entire time by believing my lawyer's filing of a second patent which was appropriate.

I was actually in captivity on July 15 05 until September 06 because someone claimed there were cookies left on a doorstep in my neighborhood. I Timothy Sheridan, SS 212-94-2353, Phone 215-242-8340 have been harassed the entire period since filing my for patent app# 09/783,811 smokeless pipe in Feb 2000.

I was delayed because the lawyer filed a separate new patent. I was delayed in waiting to hear back from the patent office. And I was delayed because they refused to speak with me.

All these efforts have been continuous and have delayed me from obtaining the patent protections for this technology. And I clearly have foreseen the many shapes and forms in which can be made.

p2 of 2
mar, 25, 08

The Ubie™ Technology is approximately 90% safer than smoking and the 2700 lives domestically which could be saved are a primary objective in addition to not being robbed of my life's work.

Patent officials have recommended forms which do not appear correct or have argued with me in ridiculous ways. I believe the office has been compromised by such behavior.

I was specifically told the second application for revival would be processed and THAT I DID NOT HAVE TO FILE A STATEMENT BECAUSE IT WAS UNNECESSARY!

Please grant my patent I am tired of being harassed, delayed, robbed, misinformed, copied, and maligned.

This invention is worth tens of billions and the level of attack is commensurate with this. The patent office should be well aware of this!

I was worried at one point that someone was trying to 'bury' my invention and theorized that it might survive by being copied. My patent attorneys statements that I wanted to abandon my patent can only be considered highly suspect as I have never said I wanted to abandon it. The effort to subvert my patent protection is very serious and well funded. It threatens both my enormous property rights and the vastly larger value of the inventor to society.

Please grant my patent and issue the necessary warnings and protections so that I may operate my International Business interest in this product and technology.

Timothy Sheridan

Timothy Sheridan mar/25/08

Delayed by attorney misstatements

Delayed By attorney incorrect filings

Delayed by Patent office response time

Delayed waiting for second patent

Delayed by Mail and phone disruptions

Delayed by being abducted and traumatized

Delayed By continuous daily harassments

Delayed By erroneous processing of initial revival

Delayed by business attacks which starved me for cash

Delayed by erroneous instructions by patent office officials to file additional forms.

Delayed by ONGOING Attacks
